Surge-Isolation	Pulse Oximeter	12930	**BCI SPECTRO2 10 Pulse Oximeter -** The BCI SPECTRO2 10 Pulse Oximeter delivers quick, reliable spot-check results, meeting the needs of health care providers in primary care environments at an affordable cost. Can be customized to address the needs of virtually any clinical setting. Great for routine patient care assessments, ongoing management of episodic conditions, health wellness checks.			$ 468.25	$ -
Surge-Isolation	Defibrillator/ Patient Monitoring	TBD	**ZOLL M- Series -** The Zoll M-Series is available in Biphasic and Monophasic versions. If you need options the Zoll M-Series has them. Options include AED or advisory, pacemaker, digital pulse oximetry, 12-lead, EKG, non-invasive blood pressure and fax transmission capability. The Zoll M-Series can be configured to match your needs. Comes complete with all accessories based on configuration and includes a 12-month parts and labor warranty.			Needs to be priced based on configuration	
Surge-Isolation	Defibrillator/ Patient Monitoring	TBD	**PHYSIO CONTROL LIFEPAK 12 -** The Lifepak 12 is available in Biphasic or Monophasic versions. The Lifepak 12 has a base configuration of advisory as well as manual defibrillation. Options include pacemaker, pulse oximetry, interpretive 12-lead EKG, non-invasive blood pressure, invasive blood pressure, end-tidal CO2 and fax transmission capability. The Lifepak 12 offers the greatest monitoring flexibility to match the most applications. The Lifepak 12 comes complete with all accessories based on configuration and includes a 12-month parts and labor warranty.			Needs to be priced based on configuration	
Surge-Isolation	Defibrillator/ Patient Monitoring	TBD	**PHILIPS HEARTSTART MRx -** The MRx provides ACLS responders with intuitive and logically designed features that support quick response and access to vital information in challenging circumstances. The MRx features a base platform of AED with manual defibrillation. With options of pacing, SPO2, diagnostic, 12-lead, non-invasive blood pressure and Microstream Capnography, the MRx can be configured to meet your needs. 8.4" display provides 4 simultaneous wave forms while the 6.3 amp hour batteries provide over 3 hours of monitoring time. Internal memory stores 8 continuous hours of patient records. Integrated recorder can be programmable for event markers. Includes all accessories based on configuration, users manual and 12-month parts and labor warranty.			Needs to be priced based on configuration	
Surge-Isolation	Portable Suction	11667	**Suction Unit Impact 321 GR -** The soft-cased Ultra-Lite aspirator does it all in a smaller lighter version that defies comparison. It exceeds clinical performance standards and comes with aeromedical certification. High performance in a package that is virtually indestructible.			$ 569.00	
Surge-Isolation	Portable Suction	G180	**Gomco AC/DC Portable Suction Unit** - The second generation OptiVac in the industry-leading Gomco line of portable suction equipment. Its compact design, ease of operation, rechargeable battery, AC power supply, and fully-enclosed unit are just a few of its advanced features.			$ 574.93	$ -
Surge-Isolation			**Ventilators**		Qty.		
Surge-Isolation	Ventilators-Surge		**Allied Healthcare**	www.Alliedhpi.com			
Surge-Isolation	Ventilators-Surge	MCV100	**MCV100 Mass Casualty Ventilator** - This mass casualty ventilator offers an integrated internal battery pack and compressors that can provide extended ventilation with or without of AC power or high pressure oxygen, providing additional level of preparedness when planning for an unknown medical surge. User adjustable alarms and additional controls provide enhanced treatment options. This mix of key ventilation controls combined with a rugged, weatherproof, and low maintenance design make the MCV100 an ideal ventilator for mass casualty response in the hospital or for field deployment. **Benefits of the MCV100** • Can be operated independently of compressed gas or AC power, offering a greater level of preparedness. • Efficient internal battery powers this unit independent of wall electricity or compressed gas for 7 hours on ambient air, or 21 hours if supplied with compressed O2. • Simple control interface allows for just-in-time training and use by a wide range of responders. • Low maintenance and weatherproof design ensures a low cost of ownership in stockpile or in everyday use.			$ 2,785.00	$ -
Surge-Isolation	Ventilators-Surge	MCV100-B	**MCV100 Mass Casualty Ventilator w/ Air Mixing Capability**			$ 3,380.00	$ -
Surge-Isolation	Ventilators-Surge	MCV200	The **MCV200** shares all of the features of the MCV100 but also incorporates a completely pneumatic ventilation option in addition to AC and DC operation. This additional operation mode provides the ability to operate indefinitely without any electrical power source, ensuring the greatest level of preparedness for mass casualty planners.			$ 4,520.00	$ -
Surge-Isolation	Ventilators-Surge	MCV200-B	**MCV200 Mass Casualty Ventilator w/ Air Mixing Capability**			$ 4,942.50	$ -
Surge-Isolation	Ventilators-Surge	MCM-001	3 Channel Oxygen Manifold			$ 43.50	$ -

Surge-Isolation	Ventilators-Surge	EPV100	**EPV100 and EPV200** are easy to use pneumatic ventilators with electronic controls and alarms. They are designed specifically to be operated by less skilled responders, enhancing medical surge response capability following a mass casualty incident. Simple controls and electronic alarms make them affordable and effective. 50psi compressed gas source and two D cell batteries are required for use. **Benefits of the EPV100 and EPV200:** • Represents the most cost effective option for medical surge stockpile or daily transport. • An intuitive control interface makes it easy for all caregivers to operate. • Durable construction for years of service. Weather resistant design. • Suitable for stockpiling or daily transport ventilation, providing a consistent standard of care. • The assist-control operation on the EPV200 provides additional utility to caregivers who are using this in the transport market or in situations where the patient may breathe spontaneously. • Very low maintenance and accessory costs ensure a low cost of ownership.			$ 457.26	$ -

O2 Management			**Ventilators**		Qty.		
O2 Management	Ventilators-Surge		**Allied Healthcare**	www.Alliedhpi.com			
O2 Management	Ventilators-Surge	MCV100	**MCV100 Mass Casualty Ventilator** - This mass casualty ventilator offers an integrated internal battery pack and compressors that can provide extended ventilation with or without of AC power or high pressure oxygen, providing additional level of preparedness when planning for an unknown medical surge. User adjustable alarms and additional controls provide enhanced treatment options. This mix of key ventilation controls combined with a rugged, weatherproof, and low maintenance design make the MCV100 an ideal ventilator for mass casualty response in the hospital or for field deployment. **Benefits of the MCV100** • Can be operated independently of compressed gas or AC power, offering a greater level of preparedness. • Efficient internal battery powers this unit independent of wall electricity or compressed gas for 7 hours on ambient air, or 21 hours if supplied with compressed O2. • Simple control interface allows for just-in-time training and use by a wide range of responders. • Low maintenance and weatherproof design ensures a low cost of ownership in stockpile or in everyday use.			$ 2,785.00	$ -
O2 Management	Ventilators-Surge	MCV100-B	**MCV100 Mass Casualty Ventilator w/ Air Mixing Capability**			$ 3,380.00	$ -
O2 Management	Ventilators-Surge	MCV200	The **MCV200** shares all of the features of the MCV100 but also incorporates a completely pneumatic ventilation option in addition to AC and DC operation. This additional operation mode provides the ability to operate indefinitely without any electrical power source, ensuring the greatest level of preparedness for mass casualty planners.			$ 4,520.00	$ -
O2 Management	Ventilators-Surge	MCV200-B	**MCV200 Mass Casualty Ventilator w/ Air Mixing Capability**			$ 4,942.50	$ -
O2 Management	Ventilators-Surge	MCM-001	3 Channel Oxygen Manifold			$ 43.50	$ -

O2 Management	Ventilators-Surge	EPV100	**EPV100 and EPV200** are easy to use pneumatic ventilators with electronic controls and alarms. They are designed specifically to be operated by less skilled responders, enhancing medical surge response capability following a mass casualty incident. Simple controls and electronic alarms make them affordable and effective. 50psi compressed gas source and two D cell batteries are required for use. **Benefits of the EPV100 and EPV200:** • Represents the most cost effective option for medical surge stockpile or daily transport. • An intuitive control interface makes it easy for all caregivers to operate. • Durable construction for years of service. Weather resistant design. • Suitable for stockpiling or daily transport ventilation, providing a consistent standard of care. • The assist-control operation on the EPV200 provides additional utility to caregivers who are using this in the transport market or in situations where the patient may breathe spontaneously. • Very low maintenance and accessory costs ensure a low cost of ownership.			$ 457.26	$ -
O2 Management	Ventilators-Surge	EPV200	**EPV200 =** features assist-control ventilation mode			$ 528.50	$ -
O2 Management	Ventilator-Transport	L760CPAP	**Autovent 4000 Transport Ventilator** - Ventilation and CPAP in one system Pneumatically powered, durable and weighs less than 5lbs · Independent settings for the critical ventilation parameters of breaths per minute, inspiratory time, tidal volume and airway pressure relief · Manual breath button and anti-breath stacking are standard · Large color-coded manometer gauge along with a low pressure alarm · Air Mixing provides 65% O2 concentration for extended cylinder life			$ 4,272.40	$ -
O2 Management	Ventilator-Transport	L762CPAP	Autovent 4000 with Electronic Alarm Package			$ 5,352.00	$ -
O2 Management	Ventilator-Transport	L461	Autovent 3000			$ 2,730.67	$ -
O2 Management	Ventilator-Transport	L460	Autovent 2000			$ 1,993.33	$ -
